

BUILDING *Blocks*

SOCIAL COMMUNICATION SKILLS GROUP PROGRAM FOR CHILDREN AGED 7-12

'Building Blocks' is a fun and interactive, evidence-based practice-based group therapy program aimed at children between the ages of 7-12. Based off the popular **Lego Therapy** model for social communication in children, building blocks focuses on several key skills required for adequate social interaction including; manners, social cues, volume control, time management, eye contact and much more!! 'Building Blocks' is run by our certified practising speech pathologists.
